The amendment received 7 February 2005 has been made of record. Claims 1 and 3-7 are pending.

Claims 1, 3 and 5-7 are rejected under 35 U.S.C. 102(e) as being anticipated by Eck et al.

This rejection is maintained for reasons of record with the exception that claim 4 is no longer included.

Applicants' arguments in traversal of this rejection appears to focus on the lack of disclosure by the reference of destructured silica. Applicants' claims are not limited to destructured silica but only to "structurally modified" silica which is seen as being met by the surface modification of the reference.

Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of
